

BUSINESS, NON-PROFIT AND INSTITUTIONAL ENERGY SAVINGS PROGRAM

WHAT IS IT?

Our Business, Non-Profit, and Institutional Energy Savings Program offers incentives to help offset the cost of an investment in high-efficiency products. This program encourages organizations to replace outdated and inefficient equipment to help reduce emissions.

In addition to financial incentives, your organization will enjoy ongoing savings on utility bills, and technological upgrades that can make your facilities more comfortable and efficient.

ELIGIBLE PRODUCTS

A complete list of eligible products (Eligible Prescriptive Measures List) can be found on our website (efficiencyalberta.ca):

- Efficient interior and exterior lighting products and controls
- Efficient Heating, Ventilation and Air Conditioning (HVAC) and water heating equipment
- Variable Frequency Drives (VFDs) for pumps and motors.
- Food service and hospitality sector measures
- Plug load measures

WHO CAN PARTICIPATE?

All business, non-profit and institutional customers serviced by an Alberta electric utility are eligible, except for new construction projects, federal and provincially owned buildings, and large final emitters—as defined under Alberta’s Carbon Competitiveness Incentive Regulation. Examples of eligible organizations include:

- Institutions such as schools, hospitals, universities, and colleges
- Non-profit organizations
- Co-operatives
- Individual businesses such as restaurants and offices
- Common spaces in multi-unit residential buildings

HOW TO PARTICIPATE

- Visit efficiencyalberta.ca to learn more about the program to see if it's the right fit for your organization
- Work with the equipment supplier(s)/contractor(s) of your choice to purchase and install qualifying measures
- Complete the online application on your own or with the help of your equipment supplier/contractor
- Provide the necessary supporting documents
- Receive email updates regarding the status of your application
- Receive your rebate cheque in the mail

You can also submit an optional application to reserve funds for up to 6 months at the outset of the process.

KEY BENEFITS

Program products help reduce energy use and energy costs.

Energy-efficient improvements can provide a quicker return on your investment.

Program products can enhance workplace comfort and working environments through improved lighting and air quality.

DID YOU KNOW?

In Canada, space heating accounts for 56% of the energy used in commercial and institutional settings.
