

Home Energy Plan

The first step of the Home Energy Plan is to call a Service Organization listed below to find your Energy Advisor and book a Home Energy Evaluation. Once complete you can access exclusive rebates and learn more about your home's energy-saving potential and valuable rebates.

We recommend getting at least three quotes from Service Organizations, the evaluator will provide more details on the program and an estimate for your Home Energy Evaluation. Unless noted, most of the Service Organizations listed below will service all Alberta communities.

3D Energy Limited

780-416-8336
